ALIREZA AZIZI

Front-End Developer

Email: Alirezavfc@proton.me Phone: +98 936 252 9279 GitHub: github.com/alirezavfc Portfolio: alirezavfc.github.io

SUMMARY

Front-end developer focused on building responsive web applications with **React**, **TypeScript**, and **Tailwind CSS**. I have applied what I've learned through personal projects. In **Persona**, I worked with **Next.js** and **App Router** and implemented forms using **React Hook Form**. In **Mini E-Commerce**, I implemented client-side routing with **React Router** and managed cart state with **Context API**. In **User Manager**, I validated forms with **React Hook Form** and **Zod**, fetched **API** data using **Axios** and **TanStack Query**, and tested components with **Vitest**. I value continuous learning, writing clean and maintainable code, and following software engineering principles.

TECHNICAL SKILLS

Markup & Styling	HTML5 (Semantic HTML) · CSS3 (Responsive Design, Flexbox, Grid) · Tailwind CSS
Frontend	JavaScript · TypeScript · React · Next.js · React Router · Context API
Forms & Data	React Hook Form & Zod · TanStack Query · Axios
Testing & Tools	Testing (Vitest, React Testing Library) · Git & GitHub · Linux
Language	English (Reading Technical Documentation)

PROJECTS

Mini E-Commerce — *Web Application* Live Demo | GitHub

React · TypeScript · Tailwind CSS · React Router · Context API · Vite

- Built a responsive e-commerce application with product search, filtering, sorting, product details, and shopping cart functionality.
- Implemented client-side routing with React Router and cart state management using Context API.
- Deployed the application to GitHub Pages.

User Manager — *Single-Page Application* Live Demo | GitHub

React · TypeScript · Tailwind CSS · React Hook Form · Zod · Axios · TanStack Query · Vitest · React Testing Library

- Built a form using React Hook Form for input management and Zod for client-side validation, submitting data to the server with Axios.
- Fetched the user list with Axios and managed server state with TanStack Query, handling loading, error, and success states.
- Tested components using Vitest and React Testing Library.

Persona — *Text-Based Social Network* Live Demo | GitHub

Next.js · TypeScript · React · Tailwind CSS · React Hook Form

- Ongoing personal learning project, currently focused on Next.js and front-end, with back-end, security, and networking planned next.
- Built a text-based social feed with user profiles, post details, replies, local mock interactions, and responsive navigation.
- Used React Hook Form for forms and deployed as a static site on GitHub Pages. UI designed with AI assistance.

Personal Portfolio — *Portfolio Website* Live Site | GitHub

HTML · CSS · JavaScript

- Designed and developed a responsive personal portfolio website to showcase projects and technical skills.
- Deployed the website using GitHub Pages.

EDUCATION

University of Mazandaran

B.Sc. in Chemistry — 2014–2018 GPA: 16/20 Military service: Completed
